In 1976, the UK's smallest chocolate factory was born and from there it grew to one of the most widely respected, independent chocolatiers in the East of England, with products that now adorn the shelves of Harrods and top London food courts.

Theirs is just one story that sits behind this delectable collection of luxury chocolate.

They are joined by a community of Fairly Traded chocolate growers and independent artisan confectioners who each come together to bring you this ultimate Chocolate gift collection for Christmas and other celebrations.

The taste experience throughout this carefully selected range has been married to an equally exquisite choice of personalised packaging that includes black gloss hampers, carousel tins and ribboned, keepsake boxes.

If you're looking for something special to gift this Christmas and throughout the year, we'll create the perfect, personalised luxury treat to make every one of your clients, suppliers and colleagues feel extra special.
